

32B-2 WIDE PURETIC POWERBLOCK

32B - 2 W Powerblock

The addition of a sheave spacer makes this our largest capacity Powerblock. Holds 42 inches of compact net circumference.

Hydraulic Motor:

32B Wide Powerblock is available with 2 different sizes of 2 speed motors. Haul at high speed or maximum torque.

All hydraulic motors are now marinated for longer service life.

Powergrip:

The yoke mounted Powergrip helps keep the net square when hauling, increasing traction and control of the net in rough weather.

Powergrip tire assemblies have galvanized rims for long service life in a saltwater environment and are available in a number of different styles, heights and widths to customize the grip based on your net size and fishery.

Hydraulic Swivel:

Rotate your powerblock 360 degrees. The load bearing hydraulic swivel option allows the powerblock to easily haul port or starboard without binding the hydraulic hoses.

PowerTilt Option:

Optional Powertilt option moves the block from side to side for total control over the hauling of the net.

Bolt in Cleated Sheave:

4 different styles of cleats are available to customize your powerblock. Rubber, Aluminum, Low Profile Polyurethane or High Profile Polyurethane.
